Number Theory Afternoon in Siegen

Universität Siegen, May 7, 2013

Organizer:
Hatice Boylan

The meeting aims to bring together at an irregular basis researchers working in number theory to present and discuss recent research results. This is the second meeting in this series. For the first one see http://www.hboylan.de/static/documents/NT-2012-12-20.pdf. For further information please send an email to *hatice.boylan@gmail.com*

When: Tuesday, May 7, 2013

Where: Universität Siegen — Siegen
Walter-Flex-Str. 3 — 57068 Siegen— EN-B 314

Schedule

16:30 − 17:10   **Ramakrishnan Balakrishnan (Harish Chandra Research Institute, India):
On a correspondence between Jacobi forms and modular forms**

17:15 − 17:55   **Murugu Manickam (Kerala School of Mathematics, India):
On Congruences of Modular Forms**

17:55 − 18:25   **Coffee and Tea Break**

18:25 − 19:05   **Nils-Peter Skoruppa (Universität Siegen):
Jacobi Eisenstein series of arbitrary lattice index
(Remarks on a joint project with Ramakrishnan R. and Manickam M.)**

19:30   **Dinner at *Altes Zeughaus (Burgstr. 18, 57072 Siegen)***
